

We offer a range of support options to assist clients with their CDP response

Traffic light analysis

Our standardized traffic light analysis, highlights ways to improve your responses

Deep dive analysis

Our deep dive analysis of specific sections addresses underlying gaps in performance in depth

Full service support

We can provide full support in completing your submission making sure to tailor to your specific needs

Support options are tailored to your needs

Traffic light analysis

- We can analyse your scorecard to present a traffic light assessment of your performance in each area against historical, sector and leadership benchmarks
- Identify focus areas based on weighted scoring and greatest opportunities for improvement
- Outline steps necessary to improve overall CDP response and feedback results to client

Deep dive analysis

- For more detail we can conduct in-depth analysis of specific CDP focus areas
- Identify opportunities to close gaps in performance
- Create a presentation for each deep dive section requested that covers:
 - CDP assessment methodology
 - In-depth analysis of client's performance relative to best practice
 - Opportunities to improve performance and recommendations

Full service support

- We can support you through the entire CDP submission process, including:
 - Working through your data to craft the response
 - Offering expert advise on CDP's methodology
 - Reviewing your final response prior submission
 - Uploading your response onto the CDP's Online Response System

The value we add

Strengthen internal engagement

- Build stronger connections with existing and/or new CDP issue owners across company (on areas such as strategy, governance, communications, risks and opportunities)

Increase buy-in

- Enhance the case for more robust sustainability strategy and expanded initiatives based on CDP analysis
- Generate savings and improve efficiency by tackling key issues

Improve disclosure & performance

- Identify strategic and programmatic areas for improvement
- Uncover activities suitable for inclusion in CDP reporting

3rd party evaluation & feedback

- Gain recognition in investor community
- Improve standing relative to peers and competitors
